

LODGE + LANTERN

Fall/Spring Transformation at Lodge + Lantern

A Golden Classic Redefined

We're excited to share that Lodge + Lantern is now under **new local ownership** as of September 15. Our family is proud to carry this Golden classic forward, while giving the building some long-overdue care and attention. Thank you to the previous owners for their stewardship, and to our returning guests — you'll notice both some **fresh updates** and the same **familiar hospitality** you've come to know.

We want you to be aware of some changes and improvements happening over the next several months. While a few projects may cause minor disruptions, our goal is to make every stay as comfortable as possible while we invest in the future of the property.

What's Changing & What to Expect

September 15, 2025 – New Ownership

- Returning guests will notice a mix of new and familiar team members.
- We're now a **locally owned and family-operated lodge**, rooted right here in Golden.
- **All existing reservations made under previous ownership remain valid and unchanged.**

Reservation Experience

- Some small updates to confirmations.
- You'll now receive **both email and text messages** to keep you better informed before and during your stay.

Pet-Friendly Rooms

- We're happy to now offer a limited number of **pet-friendly rooms**, so your four-legged companions can join you on your Golden getaway.
- These rooms are specially designated for guests traveling with pets, ensuring comfort for everyone. (Please note: a small cleaning fee applies.)

No More Resort Fees

- We've simplified pricing — **no hidden resort fees**.
- The former lobby coffee bar is being reimagined into our new **Lodge Market**, offering grab-and-go snacks, fresh fruit, specialty drinks, and everyday essentials for purchase.

November 2025 – Flooring & Lock System Upgrades

- **New flooring** in common areas will be installed during the day. Some sections may be temporarily closed, but access will be restored each evening.
- **Upgraded room locks** with ASSA ABLOY — a trusted leader in hospitality access — to enhance guest convenience and security.

Spring 2025 – Roof Renewal

- **New shingles** to refresh the lodge exterior and ensure year-round protection. Guests may notice some daytime noise from above, but this essential project will prevent leaks and preserve the building for years to come.

Looking Ahead

We appreciate your patience as we complete these updates. Each project is part of our commitment to redefining this Golden classic while preserving its character. Thank you for being part of the journey — we're excited to welcome you into the next chapter of Lodge + Lantern.
